Wes:

Cochiti Pueblo was contacted about an ASPECT overflight only on 07/01 by NMED rep, see imbedded email below. They gave us permission to fly the Pueblo on 07/02. NMED is going to send the ASPECT data to them on 07/05 and follow up with a phone call if they have questions. We have never had any air samplers on this Pueblo, so they are not effected by our air sampling schedule change. Please advise

Warren
